**About Me**

When I entered the NFL in 1994, there was a lot of skepticism about whether or not I could make it in the league. The coaches and scouts thought that I was too small and too fragile and couldn't sustain the constant physical pounding that NFL running backs endure. Surprisingly, the coaches were wrong for a running back in the NFL, a 160 pounder.

I think I could make it in the league. I had the confidence, the passion and the work ethic to succeed. But, unlike so many fans and second-round draft picks, I really felt the pressure to live to prove my value. Not only do I make it earn the average, I will exceed it, and live an amazingly productive 11 year career, making it to a Pro Bowl and being a member of the Super Bowl.

Each year, my goal was to be better than the year and surpass it. In the NFL, you typically get rewarded with a new contract based on past performance. I signed three new contracts throughout my career, each one increased significantly in value. I don't get bigger, I don't get taller, I don't learn any new running techniques, I earned a lot of value to achieve the great success. A cold, hard competitive spirit, commitment to my goal, unflinching team work, and a phenomenal work ethic.

**Football Career**

I grew up in Falls Church, Virginia near Braemar Crossroads and attended J.B. Hunt High School. During my senior year in high school, I was named "Star" Team All-American Football Virginia All-American Football and

## Customer and Colleague Commendations

Leslie has signed a National Letter of Intent for Volleyball with Fairmont State University. Coach P was a major part of this success and we are very thankful he is present in our lives. "Build a bridge to **success** with Noblesteps Management"

Lisimba has made the initial football college recruiting process very helpful. We receive requests from various schools every day for more information or to submit a highlight tape. We would recommend this product to any sophomore, Junior or Senior in any sport that is looking to play at the next level.  
~ **Bill and Sue Bennett, Client**

We received nearly instantaneous feedback from coaches at all levels, and even though we were late to get our son in the recruiting game, he was offered a preferred walk-on opportunity at a D-I school, a couple of D-II schools and was recruited very heavily at the D-III level at some of the best schools both locally and throughout the country.  
~ **Mike and Amelia Johanson, Client**

It's amazing the impact he can make in such a short period of time. ~ **Christy Stich, Client**

Some other programs only consider the athlete while Lisimba considers the student as well as the athlete in helping in making a good college choice. I like what I see and am happy to be a part of the process. ~ **Dale Weygandt, Colleague**

Lisimba is an extraordinary public speaker, very engaging, motivating and professional delivery to a wide variety of audiences. He always prepares extensively for all audiences and is a treat and pleasure to listen to.

Coach Lisimba Patilla is the founder of Noblesteps Management and architect of the trademarked recruiting system that has provided 88% of affiliated student-athletes the opportunity to continue playing sports at the collegiate level. He is the author of "Guide to Athletic Recruiting and Career Education", the only book of its kind that guides student-athletes in career education as well as athletic recruiting. Coach Patilla is a proven and dedicated ambassador of youth development and success. He is a high school defensive back coach, serves as a mentor to at-risk youth, works as a case worker at an alternative school and coordinates activities as a youth minister. Coach Patilla is a former student-athlete that started two years at cornerback at Division II powerhouse Northwood University as a scholar-athlete. He insists that he only works with student-athletes not athlete-students. There are bigger recruiting companies but Noblesteps Management is the BEST because of its commitment to matching student-athletes based on academic and career goals first.
